CAREER OBJECTIVE

Motivated Information Science Engineering student seeking to apply and expand technical skills through hands-on experience, while contributing meaningfully to organizational objectives in a dynamic work environment.

EDUCATION

New Horizon College of Engineering, Bangalore <i>Bachelor of Engineering in Information Science and Engineering(ISE)</i>	2021 – 2025 CGPA: 8.24
Sri Gayatri Junior College, Vijayawada <i>Class 12th - Board of Intermediate Education</i>	2019 – 2021 CGPA: 9.62
Saraswathi High School, Uppugundur <i>Class 10th - Board of Secondary Education</i>	2019 CGPA: 9.5

TECHNICAL SKILLS

Programming : Java, Python
Cloud & Virtualization : Azure Cloud, VMWare
Web Development : HTML5, CSS3, JavaScript
Frameworks : React.js, Spring Boot
DataBases : MySQL
Tools and Platforms : GitHub, VS Code, Eclipse IDE

PROJECTS

Live Score Board Application (Java)

- Developed a Java Based Score Board application to manage & display real time games scores efficiently.
- Built an Interactive user-friendly interface using Java, Swing, OOP concepts with Event Handling.
- Dynamic Score Updates with enhanced problem solving, debugging through end-to-end project implementation.

Grocery Store Billing System (Python)

- Built a billing application that calculates subtotals, taxes, and generates timestamped receipts.
- Enabled real-time item selection, dynamic quantity input, and total computation for user convenience.
- Demonstrated full-cycle development with user-centric design principles.

CERTIFICATIONS

- Front End Development (HTML5, CSS3, JavaScript) - Udemy
- Data Analytics using Excel and Python - Great Learning
- Full Stack Java Development - CVCORP
- Prompt Engineering & Programming with OpenAI – Columbia+

INTERNSHIPS

Cyber Security Intern - IBM Skills Build (6 Weeks)

- Explored cyber threat models, vulnerability assessments and basic encryption techniques.
- Build a steganography Project to secure messages within images.

AI Quality Data Analyst Intern - IBM (12 weeks)

- Assessed AI model performance and identified data inconsistencies.
- Collaborated with cross-functional teams to enhance training dataset quality.

SOFT SKILLS

Adaptability, Time Management, Communication, Teamwork
